What we want is plain, every-day men."

KANSAS CITY, Dec. 14.—Indictments were returned here late this afternoon against over seventy-five managers and employees of local theaters, charging them with violation of the Sunday-closing law. A number of proprietors of pool halls were also indicted. Judge Wallace had the indictments served at once and held court tonight to accept the bonds of those indicted.

Two Kansas City theaters, the Majestic, a burlesque house, and the Willis Wood, the Klaw & Erlanger house, will be closed tomorrow. Adels Ritchie, in "Fascinaling Flora" was billed to open at the Willis Wood tomorrow night, and the statement that the house would be dark confirms the report that Klaw & Erlanger had decided not to fight the Funday-closing law.

Woman's Watchword Is Modesty.

Whatever threatens woman's delicate sense of modesty, frightens her. For this reason many a w man permits disease of the delicate womanly organs to become aggravated because she cannot bring herself to submit to the ordeal of unpleasant questionings, offensive examinations, and obnoxious local treatments, which most physicians think necessary. Doubtless thousands of the women who have taken advantage of Dr. Pierce's offer of free consultation by letter have been led to do so by the escape thus offered from a treatment repugnant to modesty.

The police, Saturday night, were inclined to give Owens's story that a ne-gro assisted Sullivan in holding up the Albany bar, much credit, as the bar-tender, A. J. Buckley, said one of the highwaymen was somewhat swarthy.

Kimball House Raided.

Upon the belief that a room in the old Heber C. Kimball house, 150 North Main street, was being used as a rendezvous by robbers, the police, headed by Chief Pitt, and assisted by deputy sheriffs, was raided, and three arrests were made. In the room were found "Tip" Belcher, bartender at the Jubles saloon: "Jack" McGibbon, bartender, and Belcher's wife, all of whom were taken into custody and placed in the city jail.

The evidence against McGibbon was slight, and he was released. Belcher and his wife are being held pending further investigation. In their room was found a wagon load of goods that the police

His wife is also being held on the suspicion that she neted as a "fence" for thieves operating here. Belcher is about 30 years

Owen gives his age as 36 years, and says he came here from Lynn, Utah, where he worked as a switchman for the San Pedro railway. Sullivan's age is San Pedro railway. Sullivan's age is given as 28, and his occupation as that of a machinist.

Probably Old Offenders.

Herrick characterized Mr. Fish as a man unfit for the position of the president of the Illinois Central.

Attorney Ralph M. Shaw, for the defendant, followed Mr. Herrick. He declared that Mr. Fish desired to enjoin the voting of the stock held by the Union Pacific and the Railroad Securities company solely because he knew that it would not be voted for him at the annual election. Sullivan, who finished serving a five-year term for burglary at the State prison, Monday, and Owen, are believed to have been connected with the high-way robbery of two Greeks at First South and West Temple streets, the first of the week, and the murderous assault upon Peter Peterson, a Swede, in the rear of the Continental bar, an hour or so later, the same night. Peter-son was found unconscious and bleed-ing from scalls wounds. nois Central Railway company, followed Mr. Shaw in arguing for the dissolu-tion of the injunction. It is expected that Mr. Dickinson will not conclude

When he revived he said he had been assaulted, but that the highwaymen had missed a small amount of money on his person. As the assault occurred in a dark place, Peterson could give no description of his assailants. It was thought that he was beat over the head with a revolver. A revolver shot was heard in that neighborhood about the hour of the assault, and the police advanced the opinion that the weapon was discharged while being used to club Peterson.

About midnight Detectives Shannon and Wilson arrested Sullivan and Owen on Commercial street, both heavily armed. Sullivan's revolver was covered with blood, and one chamber was emp-FOR FIVE MILLION TIES LOS ANGELES, Cal., Dec. 14.—It is stated that the Santa Fe Railroad company has just contracted for five million ties, the biggest contract ever let for such material to be shipped by water. on Commercial street, both nearly armed. Sullivan's revolver was covered with blood, and one chamber was empty, but neither he nor Owen could be connected with the robbery of the Greeks or the assault upon Peterson. Consequently they were not prosecuted in Police court, but were given two hours in which to leave town.

Sullivan is thought to have been seen in the vard of the Kimball home shout 1:30 o'clock Saturday afternoon. A. J. Radebaugh, who lives in a rear apartment of the house, reported to the police that he saw a man who answered Sullivan's description skulking about the grounds. The stranger could not be traced by the police, however.

The litigation was begun in Chicago three years ago, and the case was taken on appeal to the supreme court by the ticket scalpers. The entering of the decree is declared by the railroad attorneys to be a death blow to the ticket scalping business.

This being the case, it becomes apparent that Pianos like the Ivers & Pond. which can be bought at Carstensen & Anson's for as little as \$285, and, logically, the same relation between high intrinsic value and low price exists throughout the entire line of instruments offered.

Invariably those who attend sales at Carstensen & Anson's are impressed with the wonderfully fine condition of the Pianos exhibited. Prices published by other houses on exchanged pianos may sometimes be as low, but the actual value of the instruments themselves cannot be compared with those shown by Carsten.

The explanation for this lies in the fact that the Pianola-Piano brings us Pianos for exchange which would not otherwise be obtainable.

It is now generally recognized that at Carstensen & Anson's the purchaser receives far greater value for what he spends than he can possibly obtain else.
